What Folks Say! . . .

- I attended the Midwest Clinic last week and wanted to buy Ritmo Suave. You were out of copies at the booth and quickly shipped it out to me so my students could get it before holiday break. I want to say thank you for getting it to me in a timely manner. We read through a good chunk of it today and the kids love it! I've always appreciated your committment for providing playable literature for high school students. Now, I also greatly appreciate your outstanding service. Thank you very much! **Walter Riesenber**

The book and DVD present fundamental musical concepts in a fun and interactive way for students of all ages. This method book is not only a great tool for the student but also a useful resource for today's music educator. **Ryan Frost / Percussion Educator / WV University**
- I purchased your new "Drummers Toolbox" this fall for use at our middle school. The book is absolutely fantastic! I have sung its praises to any who would listen..... it has been a great tool for working with our young percussionists that I wish I had possessed years ago. Keep up the good work! **Dan McGuire / Director of Percussion Science High School / Johnson City, TN**
